R.E.D. LIGHT WEIGHT SLING FRAME & PACKAGE
- TOP OF THE RANGE !

Description

R.E.D. LIGHTWEIGHT SLING FRAME

A sturdy lightweight Sling Frame for modern day use. This unique registered design is the only frame strong enough to have no lower cross bars — allowing the frame to be easily positioned around and over existing furniture even the end of a bed. Utilises the body weight of the person in the sling to stabilise the structure, thereby making it completely safe.

If you're a "Have-Frame-Will-Travel" kind of guy, then this is the package for you. Choose from the options below to create the package best suited to your needs and your budget.
