Description

An improved BDSM sex chair. The sex chair from MOI is a wanted product that has been successfully launched. Now a few years later MOI has improved this chair on a number of points.

At various places you will now find rings that allows you to go completely mad with bondage or handcuffs. The leg rests can be adjusted in height. And the seat is detached from the chair to be able to move it for your best position. The back of the sex chair is reinforced for better quality.
