The STOCKADE

Description

This evil looking Stockade is fully adjustable.

Our Stockade is made from sturdy box section steel and has a powder coat finish. Why heavy duty? Well unlike other similar frames that use very thin box section steel (similar to that used on baby gates), our are made from 3mm thick box section.

With an adjustable neck height, an adjustable Real Leather padded body rest and of course, adjustable length, this serious piece of kit will fit almost anyone! Once they are secured in, they are at your mercy!

Additional impaling / fucking rod is available and a double Vac-U-Lock attachment to enable both vaginal and anal insertion at the same time is also available (Coming Soon) This is the only set of Stocks which have the option of the F - Machine attachment (Coming soon).
