### Description

Enjoy unlimited blowjobs on demand.

The crowdfunded blowjob robot everyone is talking about!

Your blowjob robot will work hard for you!

Interchangeable sleeves come in 3 sizes to accommodate all men

Sleeves are made from realistic artificial skin material

Sleeves are easy to clean

Springs expand to give you a tight fit

Strokes a full 10 cm up and down

All-metal industrial strength motor is powerful and built to last

Plugs into any wall outlet - never need batteries

The only 6 things you need to know about Autoblow 2

1. Plug it in Autoblow 2 doesn't need batteries. Just plug it into any electrical outlet 110v-240v. Don't worry, we've designed it to be safe.

2. Sleeve system Uses interchangeable sleeves. The sleeves are easy to clean, re-useable, and come in several sizes to fit all men.

3. Hands free Just hold the Autoblow 2 in place, and it will do all the hard work for you. You control the speed and intensity of the motorized up down stroking motion.
4. Feels great The first truly realistic alternative to traditional pleasure products for men. Perfect for couples, too!
5. Robust construction: The Autoblow 2 uses an all-metal motor rated to last for 500plus hours of use.
6. Hygienic The interchangeable sleeves can be easily cleaned using soapy water, or a toy cleaner.

A perfect fit for every man every time.

Size A 7,5-10 cm girth, all lengths

Size B 10-14 cm girth, all lengths

Size C 14-16 cm girth, all lengths

Washable

Re-usable

Interchangeable

Sit back and relax, guys. It's blowjob time.

What has two thumbs and loves blowjobs? You, obviously. With the new and improved Autoblow 2, you'll soon experience the sex toy for men that sets a new standard in realistic solo experiences. Give your arm a rest and allow the Autoblow 2 to work a load or two out - automatically. The sleeve pops out in a second for easy cleaning. You'll need a water-based lubricant, plus you might want to use a toy cleaner to make sure your sleeves are squeaky clean when you're done. ENJOY!

1. Is this product built to last?

Yes. We realized that all other previous stroking products for men were built as toys, not appliances. This is the first proper masturbation appliance - the motor is built to last for more than 500 hours of use. It's a little bit heavy, and a little bit bigger than we'd like it to be - but hey- it works and it works well.

2. How big is it?

It's about 22,9 cm tall and 10,7 cm wide.

3. Does it vibrate?

No, the Autoblow 2 doesn't vibrate we don't think it would really enhance the function.

4. How do I use the Autoblow 2?

Plug your Autoblow 2 into any wall outlet, so its ready to use. Then take your

penis out, and make it hard. There are various ways to do this. Once it's hard, use a water-based lubricant and insert it into the machine. Control the speed of the up-down motion using the speed dial. You can hold the Autoblow 2 with your hand, or you can lay on your stomach while it does all the work for you completely hands free. Whenever you are ready - ejaculate. Then remove the sleeve for easy cleaning.

5. How loud is it?

The Autoblow 2 is not a silent product. It is a machine - and the reason it works is because a motor is driving the spring-loaded beads up and down. If you need silence, this might not be the product for you. It makes a sound kind of like windshield wipers.

6. Does the Autoblow 2 sleeve material contain phthalates?

No. The product is certified by a third party testing lab as phthalate-free.

7. How do I clean my Autoblw 2?

You can clean the outside of the Autoblow 2's plastic casing using anything that is safe for use on plastic - but we prefer a toy cleaner to make sure that the surfaces remain bacteria-free. We recommend you clean your sleeve using warm soap and water, followed by a few sprays of anti-bacterial toy cleaner. You can allow the sleeve to air-dry.

8. How should I take care of my Autoblow 2 sleeves?

You can preserve the Autoblow 2 sleeve's realistic skin material by storing it in a zip-lock baggie, with some ordinary cornstarch. Make sure it's totally dry before you store it.

9. Can I use my Autoblow 2 in the shower or bathtub?

No. The Autoblow 2 is an electrical appliance, and it is used while plugged into a wall outlet. Even though only a small current is sent to the machine using an AC to DC converter - you still cannot use it anywhere that it will get wet or submerged in water. So... NO, you CAN'T!

10. Is it safe? I mean, it plugs into the wall outlet...

Yes! We have designed the product to be completely safe. It uses a UL listed AC to DC converter adapter which sends only 12v 1.2a DC to the product. That is not enough current to even feel! Plus, the electrical parts are completely isolated from the rest of the product. Rest easy, guys.

11. Do you offer a warranty on this product?

The electrical parts and motor of this product are covered by a 6 months warranty. The sleeves are consumable items, and are not covered by a warranty. You can

greatly extend their useful life by storing them properly, with cornstarch. The warranty covers the main body of the product only, and only if it has not been tampered with, or taken apart.
