Description

The World's first app controlled chastity device

With the CELLMATE chastity it doesn't matter where you are or what you are doing. With this chastity device you, as the keymaster have the power to decide if your submissive is allowed to be unlocked from his chastity. In combination with the app for Android and iOS you can simply set up your account and link the CELLMATE to your user ID.

Unique user account

Every account has a unique user ID. When your first CELLMATE is paired to your account the first message you see is if you want to be a wearer or a keymaster. The keymaster decides when the cellmate unlocks. You have the ability to change your account setting to wearer or keymaster at any time with the approval of the keymaster.
